This is in response to the amendment filed May 17, 2004.

DETAILED ACTION

Response to Arguments

Applicant's arguments, filed May 17, 2004, with respect to claims 1-58, have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Allowable Subject Matter

Claims 1-58 are allowed over the prior art of record.

1. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 52, 54 and 56, the prior art of record fails to disclose or suggest the claimed provision "interrogating a schema object to obtain location information for classifiers in the database that are associated with the one or more requests; providing the location information of the classifiers to the requesting application; associating data search constraints from the one or more requests of the requesting application with locations in the database; and generating a query to the database based on the search constraints " as claimed in conjunction with remaining claims provisions.

The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
